

Albin Vega 27 Dumbéa, Port Edgar

The Albin Vega has earned herself a reputation for being an outstanding offshore cruiser. She was designed as a fast, light, ocean cruiser with berths for four adults. Well over 3,000 Vegas were built in a production run that extended more than a decade, and thousands of them are now sailing all over the world.

This particular boat completed a shorthanded circumnavigation of the UK by the Lowland route recently. She was extensively refitted for the trip in 2008-09 and is ready for serious cruising. Here is a link to my log of the trip <http://www.peyc.org.uk/images/stories/cruising/dumbas%20log.pdf> She is now up for sale as we have a larger boat and sadly can't keep two!

Price £10,995

The yacht is currently based at Port Edgar. She is currently ashore but note the cradle is not part of the sale. She does have beaching legs if you need them though.

The seller is not bound to accept any offer. The liferaft , personal items and dinghy bag do not form part of the sale.

RYA or equivalent contract will be used.
